

Number game – Tasleem and Luke

Objectives

The relevant framework objective is:

- know by heart all addition and subtraction facts for each number to 20 (key objective).

Activity description

The pupils in this class consolidated their recall of number facts to 20 by playing a number game with their 0 to 9 cards. The teacher held up a number from 0 to 20 and the children had to hold up the number needed to make a total of 20.

Commentary

Tasleem and Luke's work shows that they can mentally recall complements of numbers to 20. Although their work demonstrates performance within level 3 of Ma2 they also need to show that they are able to use their mental recall of number facts in solving problems involving larger numbers.

Items of work

Tasleem and Luke show the number they would need to add to their teacher's card to make the total 20

About this entry

Subject: mathematics

Year: 3

Key stage: 2

NC programme of study: Ma2p3d

Attainment target: Ma2

Evidence for: level 3

Framework for teaching mathematics – objectives:

- Know by heart: all addition and subtraction facts for each number to 20;
